TVEN

I was pleased to have recently Chaired and offered commentary on a national webinar for the Television Education Network (TEN) on “Tax & Property: The Challenges in Practice”. The topics that continue to be of great importance to Property Developers over the last 2 decades included:

Navigating the Margin Scheme, presented by Ross Higgins
GST Supply of a Going Concern, presented by Michael Butler
GST Implications of Purchaser, Substitutions, presented by Boris Mak

Feel free to comment or post GST issues or scenarios relating to the above topics that you’ve come across and that might be of interest to Developers
